🎯 The Opportunity in 60 Seconds

The Problem: 85 million pet-owning households struggle to understand their pets' behavior, leading to stress, anxiety, and preventable vet visits.

Our Solution: InterpWhat is an AI-powered platform that analyzes pet photos, videos, and sounds to provide instant behavioral insights and personalized care recommendations.

The Market: A $147 billion pet industry with a $2.8 billion (and growing) digital pet products segment.

The Traction: Fully functional product, 5 personalized shelter outreach emails ready to send, complete marketing package, and a mission-driven story that resonates.

The Ask: $500K - 1M to fund mobile app development, customer acquisition, and our first 18 months of operations.

The Vision: Become the market leader in applied interpretive AI, starting with pets and expanding into elderly care, baby tech, and beyond.

💡 Why InterpWhat Will Win

1. **First-Mover Advantage:** No dominant AI pet behavior competitor exists today.

2. **Mission-Driven:** Built in memory of Paisley, with a portion of proceeds supporting Chantell's medical needs and no-kill shelters.
3. **Proven Team:** A passionate founder with deep pet industry knowledge and a technical co-founder who built the entire platform.
4. **Scalable Technology:** Our AI engine is extensible to multiple verticals (elderly care, baby tech, etc.).
5. **Capital Efficient:** We've built a functional product and complete GTM strategy with minimal capital.
