InterpWhat: Investor Pitch Deck

The AI Platform for Understanding What Matters Most

Slide 1: Title Slide

InterpWhat

The AI-Powered Platform for Understanding What Matters Most

In Memory of Paisley 🐾

Slide 2: The Problem

We are surrounded by a world of silent communication we struggle to understand.

- **85 Million U.S. Pet Owners** spend **$75 Billion** annually trying to solve behavioral issues they don't understand.
- **Animal Shelters** see up to **20%** of pets returned due to behavioral mismatches, costing them millions.
- **55 Million U.S. Caregivers** experience immense stress trying to understand the needs of non-verbal loved ones.

The common thread? A massive, costly, and emotionally draining communication gap.

Slide 3: Our Solution

InterpWhat is the "Google Translate" for non-verbal communication.

We are an AI-powered platform that analyzes photos, videos, and audio to translate non-verbal cues into actionable insights.

Our first product, **InterpPet**, is a live, functional web application that helps pet owners and shelters understand animal behavior, improve welfare, and strengthen the human-animal bond.

Slide 4: Why Now? The Perfect Storm

- **AI is Ready:** Multimodal LLMs (like GPT-4 Vision) can now accurately interpret visual and auditory data.
- **Market is Ready:** The pet tech market is a **$2.8 Billion** industry growing at 18% YoY.
- **Culture is Ready:** The "pet parenting" trend has created a generation of owners desperate for deeper connection and understanding.

Slide 5: The Product - A Comprehensive Toolkit

InterpWhat is more than just an analysis tool; it's a complete pet parenting platform.

- **AI Behavior Analysis:** Understand your pet's emotions, needs, and potential health issues.
- **Breed Identification:** Automated breed detection with breed-specific care tips.
- **Care Reminders:** Push notifications for medication, appointments, and grooming.
- **Multi-Pet Comparison:** Track and compare the behavior of multiple pets side-by-side.

Slide 6: The Market Opportunity

A $500 Million Beachhead in a $200 Billion Ocean

Market	TAM	SAM	SOM (Year 5)
Pet Tech (U.S.)	$2.8 Billion | 1.2 Billion	**$500 Million**	
Baby Tech (Global)	$50 Billion | 10 Billion	-	
Elderly Care (Global)	$200 Billion | 50 Billion	-	

Our initial focus on the pet market provides a clear path to **$14M+ ARR** while we build the foundation to capture adjacent, even larger markets.

Slide 7: Go-To-Market Strategy

A Three-Pronged Approach to Dominate the Pet Market

1. **Direct-to-Consumer (D2C):**
    - Freemium SaaS model with two subscription tiers:
        - **Essential:** $14.99/mo
        - **Premium:** $29.99/mo
    - Targeted content marketing and community building.
2. **Shelter Partnerships (B2B2C):**
    - **$33/mo** subscription for shelters.
    - Provides tools to improve animal welfare and reduce returns.
    - **10% revenue share** from referred adopters, creating a viral loop.
3. **Affiliate Marketing:**
    - **25% recurring commission** for 12 months.
    - Targeting pet influencers, bloggers, and related businesses.

Slide 8: Competitive Landscape

We have no direct, well-funded competitors in AI pet behavior analysis.

Competitor	Focus	Funding	Our Advantage
Fi / Whistle	GPS Tracking	$40M+	We answer "why," not just "where."
PetPulse	Basic Behavior	None	Our AI is more advanced; better UX.
Porter Labs	Professional Vets	Seed	We are consumer-first.
TTcare	Health Symptoms	$10M	We cover behavior and wellness.

Our moat is our comprehensive platform and our extensible AI core.

Slide 9: Financial Projections

A Clear Path to $2.5M ARR in 5 Years (Pet Market Alone)

[Insert Image: /home/ubuntu/InterpWhat-Investor-Package/5-Year-Financial-Projections.png]

- **Year 1:** $148K ARR (629 subscribers)
- **Year 3:** $847K ARR (3,304 subscribers)
- **Year 5: $2.5M ARR** (9,814 subscribers)

These projections are based on our current pricing model and a conservative market penetration strategy.

Slide 10: The Vision - Beyond Pets

InterpWhat is an interpretation platform. Pets are just the beginning.

- **Year 1-2:** Dominate the pet market.
- **Year 2-3:** Launch **InterpElderly** - a tool for caregivers of non-verbal elderly patients.

- **Year 3-4:** Launch **InterpBaby** - an AI-powered baby monitor that interprets cries and behaviors.

By expanding into these verticals, we increase our TAM from $2.8 Billion * *toover * *$**200 Billion**.

Slide 11: The Team

The Perfect Blend of Passion and Expertise

- **Chantell (Co-Founder & CEO):** A lifelong animal lover with a deep, personal connection to the mission. Chantell drives the product vision and community engagement.
- **The Guy with the Mumbling Drawl (Co-Founder & CTO):** A seasoned technologist with a track record of building and scaling complex AI platforms.

We are a lean, capital-efficient team with a bias for action and a relentless focus on our users.

Slide 12: The Ask

We are seeking a $750,000 seed investment to achieve the following milestones in 18 months:

- **Launch Native Mobile Apps:** Build and launch native iOS and Android apps.
- **Acquire 10,000 Customers:** Scale our GTM strategy.
- **Onboard 100 Shelter Partners:** Solidify our B2B2C channel.
- **Begin R&D for InterpElderly:** Start data collection and model training for our next vertical.
